Students may choose from this list or discover other areas in which to serve their community. Students must complete 50 hours during their 4 years enrolled at CCHS in order to fulfill graduation requirements. Using the form provided, students MUST log the type of work they performed, number of hours worked, and have a supervisor's signature from the agency at which they volunteered. The community service form may be photocopied. If you have any questions concerning the validity of the community service and whether or not the hours/type of work will be accepted, please call or come to the school office.
